PROFILE

Electronics engineer with 5+ years of experience in telecommunications, progressing from network performance engineering at Nokia Networks to quality assurance at Claro Colombia, where test design and execution covered work delivered by Nokia, Ericsson and Huawei. Now completing a Master of Software Engineering and building modular full-stack applications using modern software engineering practices, including layered architecture, automated testing and containerised deployment. Brings an engineering mindset focused on reliability, structured problem-solving, and building software that is maintainable, testable, and resilient.

PROJECTS

Ako-Kupu — Te Reo Māori learning app

2026

Ako Kupu helps learners practise Te Reo Māori vocabulary through adaptive flashcards and AI-powered learning feedback.

- Built using modern software engineering practices, including modular architecture, automated testing and containerised deployment.
- Designed the Google Gemini integration to degrade gracefully without an API key, so the core learning function stays available when the AI layer cannot be reached.
- Developed using Agile Scrum and tracked it with Atlassian confluence/Jira, with every branch and pull request traceable to its issue.
- Live: ako-kupu.onrender.com

2026

Car Rental System — Smart VIN-locked reservations

Rental operators lose revenue when two bookings land on the same vehicle, and booking staff cannot see fleet condition at the point of sale.

- Reservations lock to a specific VIN, removing the double-booking case by design rather than by validation after the fact.
- A vehicle health score combines maintenance and usage data into a single indicator that supports better booking decisions.
- Designed with a modular architecture that separates business logic from the user interface and data storage, making the system easier to maintain and extend.

EDUCATION

2026 – APR 2027 **Master of Software Engineering**
NZQA LEVEL 9
Faculty of Technology
Yoobee College, New Zealand

2013 – 2017 **Electronic Engineer**
NZQA IQA — LEVEL 7 EQUIVALENT
Faculty of Engineering
Cundinamarca University, Colombia

ENGINEERING EXPERIENCE

OCT 2019 – NOV 2022 (FT)

Claro, Colombia [Telecommunications]

Quality Assurance Engineer

- Designed and executed test cases in test and production environments for software delivered by Nokia, Ericsson and Huawei.
- Traced defects to root cause and tracked them to resolution in Remedy and Maximo against fixed release deadlines.
- Reported findings to vendor and internal stakeholders, planning and running QA across Agile/Scrum sprint cycles.

MAR 2017 – OCT 2019 (FT)

Nokia Networks, Colombia [Telecommunications]

Network Engineer (QA-NOC, RF, RAN Back Office)

- Progressed through three engineering roles in under three years, moving from monitoring into optimisation and remote fault resolution.
- Diagnosed GSM, UMTS and LTE performance degradations and coordinated resolution across teams under service-level requirements.
- Verified configuration changes against project requirements on network expansion work.

NZ WORK EXPERIENCE

AUG 2025 – JUN 2026 (PT)

Cānting by Nic Watt, Auckland, [Fine dining], New Zealand

Duty Manager

- Accountable for shift operations as LCQ licence controller, including reporting, reconciliation and escalations.

JUN 2023 – JUN 2025 (FT)

CBK, Rotorua, [Bar & restaurant], New Zealand

Front of House (Server, Barman, Barista)

- Coordinated between kitchen, bar and floor in a high-volume venue, keeping service moving during peak periods.

SKILLS

LANGUAGES	Python, SQL, C/C++, MATLAB
DEVELOPMENT	Flask, REST APIs, HTML/CSS, Jinja, SQL databases
SOFTWARE ENGINEERING	Object-Oriented Programming, Layered Architecture, Design Patterns, Technical Documentation
TESTING & QUALITY	Automated Testing (pytest), Code Quality, Root Cause Analysis, Test Design & Execution
DEVOPS & DELIVERY	Git, GitHub, Docker, Linux, Cloud Deployment, Agile/Scrum, Jira, Confluence

LICENCES & CERTIFICATIONS

2025 **Licence Controller Qualification (LCQ)**
NZQA UNIT STANDARDS 4646 & 16705
ServiceIQ
New Zealand

LANGUAGES SPOKEN

ENGLISH Professional fluency (NZCEL Level 5)
SPANISH Native
